DETAILED ACTION

In response to the communication filed on June 7, 2004, claims 1-11 are active in this application.

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 10/707,113, filed on November 21, 2003.

Oath/Declaration

Oath/Declaration filed on June 7, 2004 has been considered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Re claim 11, page 2 of claim 11, line 16, change "region" to -layer--.

Reasons For Allowance

3. Claims 1-11 are allowable over the prior art of record.

Art Unit: 2813

4. The following is an examiner's statement of reasons for allowance: the prior art of record neither teach nor make obvious the claimed limitation of the instant application as a whole as recited in claim 1. In particular, the prior art does not teach or suggest the particular subset of the process steps for forming a deep trench capacitor by forming a material within the deep trench, covering the first conductive layer, and exposing a portion of the collar oxide layer; removing the exposed portion of the collar oxide layer for exposing the substrate at sidewalls of the top of the deep trench; removing the material layer; and forming a second conductive layer, covering the first conductive layer and the collar oxide layer, the second conductive layer contacting the substrate at the sidewalls of the top of the deep trench.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bronner et al., U.S./6,110,792 and Wu et al., U.S./6,281,069 B1 teach the similar processes for forming the device.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Chen whose telephone number is (571)272-1689. The examiner can normally be reached on Monday-Friday (9:00am-6:30pm) alternate Monday off.
